

## Coach Development

*Revised NCCP for Hockey | Overview*

---

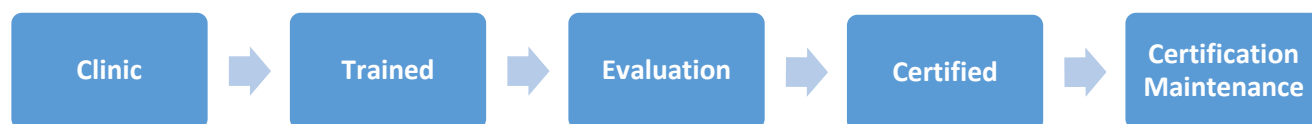

### Overview

Hockey Canada and the Coaching Association of Canada (CAC) introduced significant changes to Coach Education effective for the 2015-2016 Season.

These changes will impact clinic delivery, terminology and qualification requirements for Coaches. This document provides you with an overview and plan to Roll-out the revised NCCP for Hockey including all elements towards full implementation.

### Revised NCCP for Hockey | Pathway

The following diagram illustrates the pathway that a Coach would follow in the revised NCCP for Hockey:

\*Clinic – includes completion of all pre-clinic and in-clinic tasks

### Understanding ‘Trained’ vs ‘Certified’ Status

#### ‘Trained’ Status

Trained status indicates the coach has attended an NCCP clinic and is in the process of completing evaluation to be ‘Certified’

- **‘Trained’** Status carries an expiry of 5 years
- The development pathway for these coaches is to move through the certification process or after expiry have to re do the clinic.

#### ‘Certified’ Status

The certification process requires the Coach to show evidence of learning and is ‘Competency-based’

- **‘Certified’** status carries a expiry of 5 years
- Coaches with **‘Certified’** status will have to complete a defined number of Professional Development points through the Hockey Canada Certification Maintenance Program
- If a coach with **‘Certified’** status does not acquire required Professional Development points, the qualification will revert to **‘Trained’** status
