Re: Registration Fees

June 1, the traditional date for registration to begin with Hockey Canada, is fast approaching. As such, the Ontario Hockey Federation has passed a registration process to be used in addition to the process laid out in the March 26 [OHF Bulletin: Spring Registration](#) that will better assist stakeholders and support registrants' families.

As of June 1, 2020 Minor Hockey Associations (MHAs) and Female Hockey Associations (FHAs) can continue to pre-register participants for the 2020-2021 season for recreational hockey, and registration will now be open for Junior teams. Registration for MHAs, FHAs and Junior teams can only be done without the collection of fees for the 2020-2021 season.

Any MHA or FHA that has Registered Players prior to June 1, 2020 must disclose and report the total registration fees that have been collected to their Member and the OHF, and at the same time confirm that the organization has set those fees aside in trust and will not be using them until the length and structure of the 2020-21 season has been determined.

The OHF and their Members are encouraged by the recent announcements from the Provincial government. We will continue to put in place measures to best assist all stakeholders in the safe return to hockey for our players, in partnership with the Ontario Government and Hockey Canada.
