

ALLIANCE HOCKEY BODY CHECKING POLICY

ALLIANCE Hockey Body Checking Policy

At the 2013 Hockey Canada AGM a decision was made to eliminate Body Checking at the U13 division and introduce it at the U14 divisions of MD - now BB-B, A, AA, and AAA hockey. Along with the research and medical evidence relating to body checking, part of the rationale for this decision was based on the need to better prepare participants for body contact and eventually body checking as they progress through minor hockey and into the U14 and above divisions.

Checking is a critical skill in the game of hockey that when performed properly can create quality scoring opportunities or help a team regain control of the puck. Just like skating, puck control, passing and shooting there are key progressions to the skill of checking when taught effectively and can greatly enhance a player's enjoyment of the great game of hockey.

A common misconception is that the skill of checking begins at a certain age or age category of play. In fact, *checking* is a 4-step progression that begins the first time a young player steps on the ice. *Body checking* is the fourth and final step of a four-step teaching progression.

NCCP CHECKING PROGRESSION MODEL

It is the expectation of ALLIANCE Hockey that AAA, Seeded (AA-A) and BB-B Coaches working with U9 through U13 teams incorporate the first three phases of Checking into their practices. The Teaching Checking manuals are provided at all clinics and are also available on the [Hockey Canada website](#).

Clinic Hosting

PART 1 - Mandatory Body Checking Clinic (Step 4. - Body Checking)

All participants wishing to play in a League in their U14 season where body checking is permitted must complete a Body Checking Clinic prior to the start of their U14 evaluations.

PART 2 - Mandatory Body Checking Subsequent Clinic

During their U14 season, all participants (competing in a League where body checking is permitted) must complete a subsequent body checking clinic with their current team by December 1st of the current season. This clinic will provide review and further instruction for those participants who took an initial clinic prior to tryouts and must include all affiliated players associated with that team.

The responsibility to host these clinics rests with the Member Associations. (The subsequent clinics are not eligible for ALLIANCE Hockey subsidy)

Associations may host team body checking clinics in-house, i.e. using their own approved Instructors, or Associations may book team body checking clinics through the ALLIANCE Hockey Office

Associations must complete and submit a report with the team body checking clinic information and registrant list within two (2) weeks of hosting the clinic(s). Please use the chart below to submit your list of clinics and attach a separate registrant list. Please ensure that the registrant list includes at minimum, the registrants full name and date of birth.

ALLIANCE Hockey Associations are required to submit their body checking clinic applications for those clinics that are to be hosted prior to Spring evaluations and require Facilitators who are secured by ALLIANCE Hockey a minimum of 14 days in advance of the clinic.

Please use the form found through this [LINK](#) to submit your clinic applications: (This form is also be found under the “Forms/Development” section on the ALLIANCE Hockey homepage)
